## Experience

05.2022 - Current

**Software Engineer**  
100Devs | Minneapolis, Minnesota

Collaborate with a team of developers to build modern and responsive web applications using best practices. Build semantically structured full stack web applications. Apply agile methodologies like SCRUM for project management.

09.2021 - Current

**Full Stack Web Developer**  
Freelancing | Minneapolis, Minnesota

Build full-stack web applications for people, businesses, and non-profit organizations. Creating the best fit for the client, by listening to their needs and creating clean, responsive, and interactive projects which answer those needs and set them up for success.

11.2014 - 09.2020

**Mental Health Therapist & Owner**  
Magnolia Health & Health | Mpls., Minnesota

Built a therapy business complete with marketing, UI/UX, and web design with WordPress. Built client base by building SEO, providing HIPAA-compliant online therapy sessions, and building a therapy network on social media with over 900 local mh practitioners. Utilized a variety of software platforms for diagnosis, note-taking, scheduling, invoicing, insurance claims, accounting, and more.

10.2008 - 11.2014

**MHP, School Therapist, Personal Advocate**  
NAL, MN Autism Center, Cigna | Mpls., Minnesota
